

▼ RTC Ultra-Thin Hydraulic Cylinder

Rated Pressure: 150MPa

Rated Tonnage: 5 -200ton

Stroke Range: 10mm

- Ideal for confined-space applications
- All components undergo gas nitriding and post-oxidation treatment, resulting in enhanced corrosion resistance and extended service life.
- Single-acting, load return
- Working pressure: 1500 bar
- All models are equipped with CEJN 116 male coupler.
- Custom specifications available
